

Chief Financial Officer (CFO)

Silicon Photonic Integrated Circuits

Type et term of contract: CDI (full time, permanent)

Contact: hiring@scintil-photonics.com

Who are we?

SCINTIL Photonics is a fabless company that develops and supplies photonic integrated circuits for ultra high speed optical communications. Our technology, developed at CEA-Leti, solves the pain of Silicon photonics technology missing integrated lasers. communications.

Our Silicon photonic integrated circuit technology relies on advanced Silicon Photonics technology in production in multiple commercial foundries, and monolithically integrates lasers on the backside. We think it will empower Datacenters and Cloud Computing service providers to meet their power efficiency gain targets in a fast-growing demand for data and high-performance computing. We already delivered working demonstrators and are heading to products.

Based in Grenoble, France and Toronto, Canada, SCINTIL is currently taking its innovative technology to an industrial level as it gears up for mass production.
